## Would you like a recycled Computer ?

We are a non-profit organisation that recycles Computers that has been donated to us by individuals, businesses and local authorities who would prefer to see this equipment recycled for community use rather than disposed of into landfill sites.

Community Computers is a Microsoft™ Authorised Refurbisher (MARS) and all machines are supplied with a fully licensed Windows 98 SE Operating System. Our trained technicians clean and reprogram the Computers to the high standards required of us by Microsoft™.

We supply refurbished Computers to Playgroups, Schools, Youth Clubs, Charities and other non-profit organisations. We also make them available to those on state benefits, disabled, pensioners, and schoolchildren with learning difficulties.

A small charge is made for each Computer to help with the costs of running our workshop and the software licensing.

If you are interested in obtaining a Computer for yourself or a non-profit organisation, please take a look at our Website at:- **[www.communitycomputers.org](http://www.communitycomputers.org)** and download the FAQ's. Alternatively, please send an SAE to our workshop address to receive an information pack. We can be contacted by telephone on (01823) 324002, Monday to Friday between 10.00am and 3.00pm.

We are also pleased to accept monetary donations and any Computer equipment that either you or your Company may be disposing of in the near future.

**Check out our Website for the location map !!!!**
